 The chairlift or park bus takes you up to the Wilder Berg. 300 alpine animals including foxes, bears and wolves greet the guests. Attractions such as the catwalk, the Muffl-Walk or the generously designed lynx enclosure with great vantage points offer the best view of the enclosure. The animal feedings and the bird of prey show provide further exciting insights into the animal world.

The little adventurers can really let off steam in the play park and in the children's barn. If you get really hungry, there are particularly attractive and child-friendly offers in our gastronomy.

If you want to take a fast ride down to the valley, you can hop on a mountain kart or the Alpine Slide. On days you prefer to hike, the interactive forestry theme path from the mid- to the valley station will definitely appeal.

**Tip:** As a child-friendly alternative to the chairlift and not dependent on weather, guests can also take a shuttle bus to the mountain station. In high season, a big bus provides regularly scheduled service as posted.

### Feeding times:

Bears: every day at 10:30 a.m.  
Wildcats: every day at 01:00 p.m.  
Foxes: every day at 01:00 p.m.

-  until Monday noon at Naturpark Söltkäler  
Tel. +43 (0) 3687/23310-501; [info@schladming-dachstein.at](mailto:info@schladming-dachstein.at) (from 4 pax.)
-  CAR: from Stein an der Enns 17,5 km to St. Nikolai to the parking lot Gasthof "Zum Gamsjäger" in 8961 Sölk, St. Nikolai 127

-  Naturpark Söltkäler, 8961 Sölk, Stein a.d. Enns 107  
[www.soelktaeler.com](http://www.soelktaeler.com)
-  The adventure hike takes you along the educational water trail in St. Nikolai to the millennia-old Bräualm-Moor, where the meat-eating sundew is hungry.  

On the barefoot path you can feel the moor up close. If you like, you can sink down to your knees in the moor and then take a refreshing foot bath in the mountain stream.

At the beginning we explore life in the stream. Then we discover the wonder world of mosses and plants along the way and do station at a "natural Fridge" in the middle of the forest.

When we then leave the forest, you can expect a magnificent view of the Bräualm and the Dürrhoos waterfall. The way back leads us back to the starting point along the forest road.

The second part of the hike takes us through the moor, where you will learn all kinds of interesting things about the formation and life in the moor.

You immerse yourself in nature, build a connection to it and carefully inhale the special healing power of the trees. Together with Petra you go to the Pürglitzwald, where breathing and movement are brought into harmony with simple DO-IN physical exercises. This is how the full "forest" bath can be really enjoyed.

### SÖLKPASS

TIP

The historic north-south Alpine axis is today one of our proud cultural treasures. At 1,788 m above sea level, it is Styria's highest mountain pass, connecting Ennstal and Murtal valleys. Even back in the Bronze Age, the pass was used to transport

valuable salt south from the Salzkammergut. On the return journey, wine, spices, fabrics and southern fruits were packed north back over the Alpine divide. Schloss Großsölk's role was once to protect the trade route through Sölk

### ANCIENT WALLS AND CONTEMPORARY ART

Armin Walcher

TIP

Ancient walls, such as the Wolkenstein castle ruins in Wörschach or the ruins of the Ägydius church in **Donnersbach**, attest to the region's long history. Also worth visiting is the Glattjoch chapel in **Donnersbachwald**. Perched at 1,989 meters above sea level, it is the highest chapel in Styria, reachable in about 3.5 hours via a hiking path. Also a beautiful lookout point in combination with a

hike: the Stalingrad Cross in **Aigen**. The chapel there reminds us of the many who fell at the Battle of Stalingrad from 1942 to 1943. Culture lovers will find in the **Irdning** Sculpture Park as well as throughout town works made of wood and stone, created by Austrian and international artists.

 Trautenfels Castle is enthroned on a rocky outcropping at the foot of the Grimming. It was here that a castle by the name of Neuhaus was first mentioned in 1261. In the 17<sup>th</sup> century, the building was remodeled by Count Siegmund Friedrich von Trauttmansdorff in the style of the Baroque. The high-quality frescoes were created by Carpofo Tencalla, the stucco work by Alessandro Sereni. Since the structure underwent thorough rehabilitation work in 1992, visitors are also surprised by modern architectural elements in the midst of this historic building. The regional heritage museum housed at Trautenfels Castle presents the cultural and natural history of the Styrian Ennstal and Ausseerland regions in a series of 13 kaleidoscope-like rooms. The lookout tower, open to the public, affords broad views across the alpine world of the Ennstal. Accessible to people with mobility limitations and those with learning disabilities.

The central focus is on the processing and subsequent use of nickel, once and even now a highly sought-after metal. Traces of the past leave a lasting impression on visitors, while the extraordinarily dangerous work of the miners becomes clearly evident. The imp, whose name also happens to be “Nickel”, injects extra life into the exhibition for kids, motivating them to learn even more.

Use the Schladming-Eschachalm bus line (included in the summer card).

The topic of hunting and its history is also given significant space in a special permanent exhibition.

## DO YOU ALREADY KNOW...? in Forstau

**PATH OF ST. LEONHARD – LOURDES CHAPEL**

TIP

The Path of St. Leonhard begins at the cathedral in Salzburg and ends in St. Leonhard outside Tamsweg, though it also leads through **Forstau**. The parish church in Forstau (built 1742) is likewise consecrated to St. Leonhard. At the bottom of a short pathway, we come to the Lourdes Chapel. This chapel on the banks of the Forstaubach commemorates the visions of the Virgin Mary and the miraculous healings associated with Lourdes, the famous pilgrimage destination in France. Its most striking feature is a grotto with stalactites. In part,

they were brought here especially from France, while the rest originated in the Forstau area adjacent to the Oberhütensee. A Madonna in Neo-Baroque style, which could be positively identified as a Lourdes figure, is embedded in the stone grotto.

The chapel has remained unchanged since it was established. In 2004, the Lourdes Chapel was designated as a listed monument. The chapel is open to all interested visitors.

## in Öblarn

**ART @ CULTURE**

TIP

The biggest amateur theater in the Alpine region puts on regular performances and transforms the entire town into a stage. **"Die Hochzeit" ("The Wedding")** has a historical theme and revolves around the love story of Archduke John and Anna Plochl. Written by famous poet Paula Grogger, it never fails to captivate thousands of viewers sitting out on a village square that has remained unchanged for centuries.

The Öblarn art & cultural association [ku:L] hosts a wide variety of events: concerts including folk music, jazz and classical, travelogues, improv theater, cabaret, children's movies, yodeling and dancing classes, exhibitions,... The goal is to offer art and culture in rural areas, thereby making these areas even more appealing. [ku:L] sees itself as an open, tolerant institution for encounters that span generations; where imagination and creativity are allowed to unfold.

 **Welcome to a valley of history & stories!**  
The Austrian Open-Air Museum in Stübing near Graz invites visitors to take a walk amid a variety of historic buildings from all Austrian provinces. Stübing is one of the 10 biggest open-air museums in Europe. As you journey back in time through 6 centuries, you will not only encounter various types of homes and farmhouses from Burgenland to Vorarlberg, but also mills, blacksmith shops, a sawmill and much more. The equipment shed, the historic grocery store and the old schoolhouse awaken special memories and comparisons with today. 100 historic farm buildings invite you to discover a fascinating history and stories about sustainable living and everyday life in the country. The smell of fresh bread in the oven, crafts demonstrations and work in the fields adds a vibrancy to the overall impression. An inn invites you to enjoy a well-earned refreshment break, whilst folk customs, festivities and a wide variety of educational programs make for a colorful annual program that brings us face to face with the lives of our ancestors.

Theme Focus 2022  
**“Clothing – between handcraft, function and fashion”** begins on 29 May and provides an overview of past developments in the world of farmhouse textiles. The clothing of country folk was mainly focused on work. It had to be practical, functional and, above all, robust. It is rare to find work clothing from former times that has been preserved, since it was worn for as long as possible and patched multiple times, until it was finally either turned into rags or handed over to the ragman. Meanwhile, it is far more common for clothes that used as “Sunday best” and for special occasions to have survived. They were only worn on a few red-letter days throughout the year and were often handed down from one generation to the next. The craftsmanship that went into creating many of these clothes is presented on special theme days. (please visit [www.freilichtmuseum.at](http://www.freilichtmuseum.at) for details)

## Terms & Conditions

The following conditions are expressly stipulated for the issuance and use of the Sommercard.

### PREAMBLE

The Schladming-Dachstein Sommercard (hereinafter referred to as: Sommercard) entitles Guests of the Schladming-Dachstein Region, who are staying during Sommercard season at a Sommercard host business and who have registered by means of the official Guest registration form, to take advantage of many bonus services as well as free admission to over 100 holiday attractions, including summer lifts, swimming pools and museums as well as use of participating public transportation in the region and an exciting family program.

The purchase, issuance and utilization of the Sommercard – insofar as not stipulated otherwise – is subject exclusively to the following Terms & Conditions (hereinafter referred to as: Terms).

To facilitate comprehension, these Terms avoid gender-specific formulations to the greatest extent possible. Insofar as any gender-specific terminology happens to be used, the intent is that this applies to all genders.

### 1. LEGAL SCOPE OF THESE TERMS & CONDITIONS

These Terms apply to the contractual relationship between the operators of the Sommercard and Sommercard holders and – insofar as nothing is stipulated to the contrary below – represent the exclusive legal foundation for issuance and utilization of the Sommercard. Divergent provisions are not recognized by the operators of the Sommercard and may not, therefore, constitute part of the contract. These Terms may be found on the website of Schladming-Dachstein Tourismusmarketing GmbH at <https://www.schladming-dachstein.at/de/Service/Impressum>, from where they may also be saved or printed off.

### 2. OPERATORS OF THE SOMMERCARD

The operators of the Sommercard are ARGE Schladming-Dachstein service providers as well as Schladming-Dachstein Tourismusmarketing GmbH, which may be reached by means of the following contact channels:

Tel.: +43 (0) 3687 23310

Email: [info@sommercard.info](mailto:info@sommercard.info)

Post: Rohrmoosstraße 234, A-8970 Schladming

Members of ARGE Schladming-Dachstein Sommercard can be found under the following Internet address: <https://www.schladming-dachstein.at/de/Sommercard/Datenschutz?#ARGE-Mitglieder>

### 3. PURCHASE AND ISSUANCE OF THE SOMMERCARD

The conclusion of an accommodation agreement with a host Sommercard business (refer to website) entitles the contractual partner and their travel companions (Guest) to avail themselves of the Sommercard. (The contractual relationship between the Guest and the Sommercard host – with the exception of provisions pertaining specifically to the Sommercard – is unaffected by the Terms at hand.)

A requirement for issuance of the Sommercard is that the Guest – in accordance with official registration regulations – has truthfully reported their personal data to the host Sommercard business.

Regardless of the length of stay, the Sommercard host is required to draw the Guest's attention to the Sommercard. The Sommercard host will issue the Guest with a physical or digital Sommercard. The physical Sommercard only becomes valid subsequent to the Guest having signed the back of the card. The digital Sommercard is valid as soon as it has been activated by means of the Sommercard app (hereinafter referred to as: app) on the Guest's smart phone. In order for the digital card to be issued (without a physical card), the Guest must provide the Sommercard host with an email address to which the Sommercard host can then send a link for the digital card.

The Guest is likewise entitled to install the app on their (mobile) device, then use the scan function to convert and subsequently use the physical card as a digital Sommercard.

The Sommercard may only be used for utilization of Sommercard services by that person whose name and identification number is given on the card (the legitimate holder). With respect to the digital Sommercard, it is possible to store the cards of several people on the same end device. However, each respective digital Sommercard may only be utilized by the legitimate holder in question.

The Sommercard is nontransferable and is not available for purchase on the open market (only as a season ticket).

#### 4. VALIDITY OF THE SOMMERCARD

The general validity period of the Sommercard extends from 20 May until 1 November 2022.

The specific validity of a Sommercard is restricted to the dates of the stay stipulated in the accommodation agreement entered into between the Guest and the Sommercard host in question. Validity begins at 1 PM on arrival day, while the card remains valid for all of the remaining days including departure day.

#### 5. SCOPE OF SOMMERCARD SERVICES

The Sommercard entitles the holder to utilize specified Sommercard services according to the Sommercard conditions as detailed. The specified Sommercard services as well as the detailed Sommercard conditions may be consulted at [www.sommercard.info](http://www.sommercard.info) - this information is nonbinding. With the exception of the specific conditions, the respective tariff conditions of the Sommercard service provider in question will apply.

When utilizing Sommercard services, the respective general terms of carriage and business, access restrictions, capacity restrictions and hours of operation of the Sommercard partner business will apply. Furthermore, utilization of Sommercard services may be adversely affected by additional waiting periods or cancellations due to weather, seasonal or miscellaneous operational reasons. Liability on the part of the Sommercard operator for such limitations of service is excluded.

#### 6. UTILIZATION OF SOMMERCARD SERVICES

In order to utilize a specific Sommercard service, the physical or digital Sommercard must be presented to the Sommercard service provider whose Sommercard services are about to be utilized, prior to concluding the contract entitling the cardholder to utilization of said Sommercard services. The Sommercard service provider is entitled to check the validity of the Sommercard by means of an electronic verification device, visual inspection etc. If the Sommercard service provider has any doubts about the validity of the Sommercard or the holder's entitlement to use the Sommercard in question, the provider may demand presentation of photo identification as proof. If the Sommercard is not presented, if it is not or no longer valid, or if the holder refuses to show it, the Sommercard service provider is entitled to deny conclusion of a contract for the Sommercard service in question according to the conditions originally associated with the Sommercard.

#### 7. MISUSE, LOSS, THEFT OF THE SOMMERCARD

The Schladming-Dachstein Sommercard is nontransferable. The legitimate holder must ensure that the Sommercard is not misused. Misuse includes in particular the illegitimate utilization of Sommercard services under Sommercard-specific conditions, duplication of the Sommercard or use of the Sommercard by third-parties. The attempt to transfer a Sommercard to a different person constitutes misuse *per se*. In the event of misuse, loss, theft or other misplacement of the Sommercard, the legitimate holder must notify the Sommercard operator by telephone or email or the Sommercard-Gastgeber host without delay. The Sommercard operator is not liable for the consequences of damages due either to complete failure or culpable delay in notifying the Sommercard operator about the misuse, loss, theft or other misplacement of the Sommercard – subject to Pt. 8. of these Terms. Misuse will be penalized by confiscation without replacement of the Sommercard and a fine of at least € 70, or by official complaint lodged with the appropriate authorities.

With respect to loss, theft or other misplacement of the physical Sommercard, the legitimate holder has the right to issuance of a new Sommercard.

#### 8. LIABILITY

The holder of the Sommercard is aware that the sole responsibility of the operator of the Sommercard is for processing procedures between the legitimate holder and the Sommercard service providers as well as Sommercard hosts. The legitimate holders relinquish any potential guarantee or damage claims against the operators, regardless of whether the service provider or Sommercard host is accused of a negligent breach or not. Liability on the part of the operator for damages due to slight negligence with respect to breaches of secondary obligations is excluded. In the event of negligent breaches with respect to primary obligations, the operator is not liable for damages the cause of which, by dint of their general nature, appear completely incommensurate with such damages, or for damages which are merely the result of an extraordinary chain of circumstances. Liability on the part of the operator for premeditation, gross negligence as well as damages resulting from culpable injury to life, body or health of people shall remain unaffected by the aforementioned provisions.

The operator is not the contractual partner of the legitimate holder when utilizing Sommercard services. That said, the operator is not liable with respect to any claims deriving from the contractual relationship between the legitimate holder and the Sommercard service provider in question. In particular, the operator is not liable for denied, non-provided or inadequate (Sommercard-)services rendered by a Sommercard service provider, for damages resulting from the legitimate holder (or his/her companions) utilizing Sommercard services, nor for those services listed as Sommercard services under <https://www.schladming-dachstein.at/de/Sommer/Sommercard#Sommercard-Attraktionen> or in the Sommercard brochure not being offered by the service providers in accordance with the described Sommercard conditions.

#### 9. DATA PRIVACY

The safeguarding of personal privacy and personally identifiable data of the Sommercard user is a special priority of the operator. Consequently, personally identifiable data is processed exclusively on the foundation of statutory provisions (Regulation [EU] 2016/679 for the protection of natural persons pertinent to the processing of personally identifiable data, free movement of data, and repeal of directive 95/46/EEC [GDPR], Data Privacy Act 2018 [“DSG 2018”] and the Telecommunication Act 2003 [“TKG 2003”]).

The Data Privacy Policy of Schladming-Dachstein Sommercard may be consulted online by clicking on the following link: <https://www.schladming-dachstein.at/de/Sommer/Sommercard/Datenschutz>  
Consent to these Terms simultaneously confirms awareness of the Data Privacy Policy.

#### 10. AMENDMENTS TO THE TERMS

Amendments to the Terms come into immediate effect. The exception to this are Sommercards which are valid at the point in time when the amendment comes into effect. These continue to be subject to – with the following exceptions – the Terms in their most recent valid version prior to purchase of the Sommercard.

The operator may undertake minimal, objectively justifiable amendments to these Terms consistent with § 6 (2) (3) KSchG unilaterally at any time. These amendments may include, in particular: extension of the validity period, editorial adaptations and stylistic changes. Sommercard users will be provided notification of unilateral amendments to these Terms at the Internet address <https://www.schladming-dachstein.at/de/Service/Impressum> and potentially also by email.

#### 11. SEVERABILITY CLAUSE

Should individual provisions of these Terms – including this particular provision – be declared null or void, either completely or in part, or if the agreement evinces an unforeseen loophole, this shall in no way affect the validity of the remaining provisions. In place of a voided or absent provision, insofar as no compelling legal regulations demand the contrary, this agreement will be amended by means of a provision which most closely approximates the commercial and contextual purposes of the original provision in question.

#### 12. APPLICABLE LAW

Insofar as no compelling statutory regulations demand the contrary, the applicability of Austrian substantive law under exclusion of international civil law as well as the UN Sales Convention shall be stipulated.

#### 13. SEAT OF JURISDICTION

Insofar as no compelling statutory regulations demand the contrary, the international jurisdiction of the Austrian courts as well as the competent courts – at the point in time when suit was brought – with local jurisdiction over the seat of Schladming-Dachstein Tourismusmarketing GmbH shall be stipulated.

#### 14. SOMMERCARD SEASON PASSES

Offshoots of the Schladming-Dachstein Sommercard for guests, there are various other cards which are valid for the entire Sommercard season: the Vermieterkarte, Freizeitkarte, employee- and benefit cards. These passes deviate in their included services and specific conditions from those of the Sommercard for guests. The aforementioned terms are, however, applicable to all seasonal cards with the exception of the validity period and purchase conditions.
